

# COVID-19 Safety Precautions 2022

These precautions are subject to change based on the current situation of COVID community spread. We will update this page in May with the most current information.

## Teams

Campers will be grouped according to age in teams that will stay separate from other teams. Two or more staff leaders will be solely designated to each team. They will spend most of the day outside but will have separate areas of the building where the group can gather for activities and have separate bathrooms, drinking fountains, and locker areas. Beginner Camp will have the yellow building as their base.

## Extended Care Included

The regular camp program is 9:00-3:45. Teams will remain separated throughout extended care times. Therefore, you can drop your camper off any time between 7:00-9:00 am and they will join their specific group. Pick them up any time between 3:45-6:00 pm.

## Drop-off / Pick-up Times

Drop-off and Pick-up will take place in the parking lot near the yellow Early Education Building. Parents will stay in their vehicle and will not enter the building at these times.

## Safety to Prevent Spread

The latest safety requirements will be followed. Do not send your child to camp if they have any cold symptoms until they have received a negative COVID test. Staff and children will have the option to wear masks indoors and outdoors. (We spend 80-90% of the day outside!)

## Cleaning

Cleaning and sanitizing will take place on common touch surfaces following any food consumption events (snack, lunch, etc.). Campers will be asked to wash hands or use hand sanitizer in between activities.

## Lunch and Water

Campers must bring a lunch and refillable water bottle each day. Hot lunch will **not** be available for purchase. Lunch and snack time will take place outdoors in designated team areas. Water fountains can be used to refill water bottles but not for drinking directly from it.
